

If Data not available enter 2 digit response of -8. Do not enter more than one 8. Do not use -8 instead of zero.

I. Resident Immunizations Definitions

For the questions requiring a numeric response, if none, please enter 0.

1. How many total residents received any type of medical care or services during the calendar year? 87
2. Influenza Immunization Data
- a. For the 2013 - 2014 influenza season, during what month did your facility begin offering influenza vaccine to residents? (Select appropriate month code.) 88
- 00=Not Offered 12=DEC 2013
08=AUG 2013 01=JAN 2014
09=SEP 2013 02=FEB 2014
10=OCT 2013 03=MAR 2014
11=NOV 2013 98=Other
- b. How many residents at your facility were immunized with the influenza vaccine for the current 2013 - 2014 influenza season? 89
- c. How many residents had the following reasons for not having documentation of receiving flu vaccine:
- Contraindicated 90
- 91
- Religious belief 92
- 93
- Resident/family refused 93
- 94
- Allergies 94
- 95
- Illness/medical condition 95
- 96
- Vaccine unavailable 96
- 97
- Received elsewhere 97
- 98
- Had previously but unable to find record 98
- 99
- Other 99
- Please specify other reason/s:
- 100
- All questions in this section [I.2.d – I.2.i] are for the calendar year:
- d. How many residents died or were discharged prior to receiving the influenza immunization for the current influenza season? 101
- e. How many outbreaks of confirmed influenza or influenza-like illness symptoms were at your facility, as determined by your medical director? 102
- f. How many residents had illness similar to influenza-like illness symptoms, but not confirmed influenza? 103
- g. How many residents had illness related to confirmed influenza (by laboratory testing)? 104
- h. How many residents died while displaying influenza-like illness symptoms, but not confirmed influenza? 105
- i. How many residents died from causes related to confirmed influenza (by laboratory testing)? 106
- j. How many residents were admitted to hospitals due to influenza-like illness symptoms? 107
- k. How many residents, including those reported in item (g), were admitted to hospitals due to confirmed influenza? 108
- l. How many residents were admitted to hospitals due to complications of influenza? 109
3. Pneumococcal Immunization Data (All questions in this section [I.3.a – I.3.i] are for the calendar year)
- a. Identify the number of residents who are current on pneumococcal vaccination according to the latest CDC guidelines. 110

- b. How many residents had illness related to pneumococcal disease? 111
- c. How many residents died from causes related to pneumococcal disease? 112
- d. How many residents were admitted to hospitals due to pneumococcal disease? 113
- e. How many residents were admitted to hospitals due to complications of pneumococcal disease? 114
- f. Of those reported in items (d) and (e) above:
- How many residents had invasive pneumococcal disease (i.e. bacteremia, meningitis or infection of a normally sterile site)? 115
- How many residents had an unknown invasive pneumococcal disease status? 116
- g. How many residents had the following reasons for not having documentation of receiving pneumococcal vaccine: 117
- Contraindicated 118
- Religious belief 119
- Resident/Family refused 120
- Allergies 121
- Illness/medical condition 122
- Vaccine unavailable 123
- Received elsewhere 124
- Had previously but unable to find record 125
- Other 126
- Please specify other reason/s:
- 127
- h. How many outbreaks of pneumococcal disease were at your facility, as determined by your medical director? 128
- i. How many residents died or were discharged prior to pneumococcal immunization? 129

J. Health Care Workers (HCWs) Definitions

1. How many volunteers and unpaid employees were at your facility during the year? 130
2. How many total employees worked at your facility during the 2013 - 2014 influenza season (include all persons from Section H and Section J question 1 above)? 131
3. Of the total number of employees included in question 2 above:
- a. How many received an annual vaccination for influenza, regardless of the source of the vaccination? 132
- b. How many have unknown vaccination status? 133
- c. How many were not vaccinated? 134
- d. How many have a medical contraindication to the influenza vaccine? 135
